PROFESSIONAL EXTERIOR COLOURS by Mapei

Elastocolor Pittura Zero

Indoor and outdoor crack-bridging, anti-carbonation elastomeric paint, resistant to moulds and algae, with offset CO₂ emissions through the entire life cycle.

Colorite Performance

Protective acrylic paint with high resistance to UV rays for internal and external use.

Colorite Beton

Semi-transparent, anti-carbonation acrylic paint with a smooth finish for internal and external surfaces. Available in a selection of colours.

Silexcolor Paint

Silicate based, vapour-permeable protective paint system for cement or lime-based renders in interiors and exteriors.

Silancolor Paint Zero

Highly vapour permeable and water repellent silicone based paint in water dispersion for exteriors and interiors with offset CO₂ emissions through the entire life cycle.

Silancolor AC Pittura

Water-repellent acrylic-siloxane paint with high resistance to UV rays for internal and external surfaces.

EXtra Colour is the Mapei colour fan deck featuring pro-grade colours specifically designed for external surfaces.

A collection of 315 carefully selected shades to ensure long-lasting protection for external surfaces in the building sector. Specially formulated to maintain their colour over time thanks to the use of pigments with high resistance to UV rays and weathering. EXtra-stable shades available with ColorMap® tinting system for Mapei's range of paints and coating products for external surfaces.

Why EXtra?

EXtra strength for external colours, in all weather conditions.

EXtra long-lasting colour, without variations.

EXtra resistance to sunlight, wind and rain.

EXtra protection for substrates.

EXtra aesthetic quality.
